Experience

Junior web developer | **MMIT SOFT LTD.** (Corporate)

Joined: 10 aug 2024 – still working

Total Experience: Job: 1 Year

Job & Others: 3 Years

Key Responsibilities:

- Developed and maintained responsive, user-friendly web interfaces using **HTML, CSS, Tailwind, JavaScript, Alpine.js, React.js, and Next.js**
- Collaborated with back-end teams on **PHP Laravel** projects, ensuring smooth design-to-development workflows.
- Implemented best practices for **version control** using Git and GitHub.
- Translated UI/UX designs into functional and visually appealing web applications.
- Optimized website performance for speed, accessibility, and SEO.
- Worked on diverse projects, including **e-commerce, import/export, jewellery, courier, and educational platforms**.
- Conducted regular testing and debugging to maintain high-quality code.

Key Achievements:

- Successfully delivered **15+ professional web projects** on time, improving client satisfaction and retention.
- Enhanced website load times by **up to 40%** through efficient front-end optimization.
- Designed and implemented **custom UI components** that increased user engagement and improved overall user experience.
- Contributed to **cross-functional teamwork**, reducing development time by **20%** through better collaboration.
- Earned recognition from clients for delivering **modern, scalable, and visually appealing designs**.

Some of projects

Dadubari – dadubari.com

Role: Front-End Developer

Tech Stack: Tailwind CSS, Next.js

Summary: Contributed to the development of a Bangladeshi social media platform, delivering responsive front-end interfaces and integrating RESTful APIs (GET, POST, PUT, DELETE). One of my finest projects, where I focused on performance, usability, and seamless user interaction.

Sparkle Jewellers – sparklejewellers.com.bd

Role: Front-End Designer

Tech Stack: HTML, CSS, Tailwind CSS, Alpine.js

Summary: Developed a sleek and user-friendly interface for this jewelry e-commerce platform, emphasizing brand aesthetics and seamless navigation. Enhanced visual appeal and optimized the layout for a smooth shopping experience across all devices.

Courier Dashboard – <https://shorturl.at/kCBjN>

Role: Front-End Designer

Tech Stack: Tailwind CSS, Alpine.js

Summary: Designed and developed a professional courier management dashboard with an eye-catching, intuitive interface. Focused on user experience and responsiveness, spending over a month refining the layout and functionality. Recognized as one of my most polished design projects.

Flyvaly – flyvaly.com

Role: Front-End Designer

Tech Stack: Tailwind CSS, Alpine.js, OWL Carousel

Summary: Designed and implemented a professional, clean, and visually engaging website for an international travel company. Built user-friendly interfaces for services like visa processing, flights, hotels, insurance, tours, and car rentals, focusing on responsive design and smooth navigation.

Pharmacy software – medimanage.xyz/

Role: Front-End Designer

Tech Stack: Tailwind CSS, Alpine.js

Summary: Designed a clean and user-friendly interface for a PHP Laravel-based pharmacy management system. Focused on creating a responsive layout that simplifies daily operations and enhances overall usability.

Gawsia Bazar – gawsiabazar.com

Role: Front-End Designer

Tech Stack: HTML, CSS, Tailwind CSS, Alpine.js

Summary: Built the front-end of an e-commerce platform for Bangladesh's largest marketplace, Gawsia. Focused on delivering a robust, responsive, and visually engaging shopping experience, making this one of my most significant projects.

AIA Venture LTD – aiaventure.com

Role: Front-End Designer

Tech Stack: HTML, CSS, Tailwind CSS, Alpine.js

Summary: Contributed to the front-end design of a **Laravel + Livewire**-based driverless car rental platform. Focused on creating responsive, user-friendly interfaces and ensuring a seamless user experience.

Food Court – <https://food-court-seven-sandy.vercel.app/>

Role: Front-End Developer

Tech Stack: Next.js, Tailwind CSS

Summary: Designed and developed a modern, responsive interface for a food ordering platform, focusing on clean UI and seamless user experience. Integrated REST APIs (GET, POST, PUT, DELETE) to enable dynamic content management. Considered one of my most outstanding design achievements.

Mozahar.com – mozahar.com

Role: Front-End Developer

Tech Stack: Next.js, Tailwind CSS

Summary: Developed a comprehensive online education platform enabling students to read and answer questions, participate in exams, and access learning resources. Built responsive interfaces and optimized user experience, including features for teachers to create and manage exam papers.

TMZ – tmz.com.bd

Role: Front-End Designer

Tech Stack: HTML, CSS, Tailwind CSS, Alpine.js

Summary: Created a responsive, visually appealing website for a Bangladeshi import-export company with operations across China, India, Malaysia, Singapore, Dubai, UAE, France, Turkey, Thailand, and Taiwan. Focused on clean design, smooth navigation, and enhanced user experience using advanced UI elements.
